Full-stack web developer with 3+ years of hands-on; experience in PHP (Symfony, Yii2) , modern JavaScript (ES6) and TypeScript (React, Angular). I build maintainable web applications, APIs and pragmatic front-end interfaces, with a strong focus on testing, Docker-based projects and use of Design Principles and Patterns.

Localero Startup / Full Stack Web Developer

AUG 2025 - PRESENT, REMOTE WORK

PHP · Symfony · ES6 · API · Hotwire Turbo & Stimulus · SCSS · .env

- Building back-office to manage entities via CRUD methods and use of internal APIs. This is useful to manage entities without having to write direct SQL queries.
- Redesigned back-office layout and style by using Bootstrap and SCSS resolving the problem of having confusion with classes in CSS files.
- Implemented i18n to make the web app readable for non italian users.

Bitdrome s.r.l. / Full Stack Web Developer

AUG 2024 - JUL 2025, TORCHIARA / AGROPOLI (SA)

PHP · Yii2 · JQuery · API · Docker · ES6 · CSS · Makefile · .env · Scrum

- Developed two internal management tools with Yii2 (PHP) and jQuery: a push-notification manager for a weather app (team of 2) and a commission calculator (solo delivery).
- Redesigned and built the company website with GSAP animations and an integrated content manager for non-technical editors.
- Improved code quality and workflow using Docker, debugging tools and CI-friendly practices.

Hubitat s.r.l. / Front-End Web Developer

OCT 2023 - SEP 2024, BATTIPAGLIA (SA)

PHP · WordPress · PrestaShop · JQuery · ES6 · CSS · Plesk

- Built 10+ custom WordPress and PrestaShop web apps; implemented custom themes and payment integrations.
- Worked on Symfony-based modules, integrated plugins to improve website performance, and optimized SQL queries.
- Collaborated with cross-functional teams and fixed production bugs across multiple client projects.

Lenus Media s.r.l. / Front-End Web Developer (Stage)

JAN 2022 - FEB 2022, CAVA DE' TIRRENI (SA)

PHP · WordPress · JavaScript · CSS

Freelance / Full Stack Web Developer

JUL 2021 - PRESENT

- Delivered 10+ web apps (WordPress, PrestaShop, vanilla HTML/CSS/JS) for small businesses and agencies.
- Collaborated on a pharmacy management software using Angular and TypeScript consuming internal APIs.
- Currently collaborating on Localero (Symfony 6, Hotwire Turbo, Stimulus): startup platform for live events and music bands with contest scoring and event management modules.
